# Hardly Believe

I can't believe  
How I found you  
With eyes so blue  
Then came the date  
Where I told you  
I love you

## **I thought**

I always thought you were the one  
The one I could talk to  
And share my dreams with  
I loved you from our very first kiss  
Up til the day you left

## **He lives on**

No matter how hard I try to forget  
I see you full of regret  
And how you're upset  
As you weep  
I told you he's in no pain  
So remember that when angels cry  
He's forever by your side

## Stressed Out

I'm so stressed out  
Yet I love you without a doubt  
Made to scream and shout  
Even when I pout  
You kiss my lips  
Because you're the one  
who knows me best

## **Nothing compares to you**

Days like this I want to get away  
Away from the pain  
And tears from day to day  
Miss those games we used to play  
Loved every memory we shared  
Because a love like yours  
Reminds me it can't be compared

## **Here with me**

I wish you were here  
Just here with me  
Because since you left  
Nothing been the same  
As it used to be  
It's been years since  
We felt your body next to us  
Maybe your gone  
But I'm living proof  
That your spirit lives on
